

The background is a dark, space-themed illustration. It features several large, dark grey, angular rock-like shapes floating in a field of smaller, similar shapes. Thin, glowing orange lines connect some of these shapes, creating a network-like pattern. In the center, there is a large, dark hexagonal shape with a faint, circular logo inside it. The logo appears to be a stylized 'E' or a similar symbol. The overall color palette is dark with orange highlights.

# ERIS Protocol

2024 Seed Investment Round

# Vision

Eris Protocol

Security is the central theme for the future of decentralised finance. Prioritised around strong decentralization and interconnectivity, security establishes trust and confidence, the building blocks for protocol longevity.

ERIS is building the only credible neutral **modular liquid staking, restaking and yield optimization layer** in Cosmos. Validators are chosen by Gauge voting, incentivizing validators to leverage self-stake to show their commitment to a chain.

Fueled by the knowledge of the dangers of single points of failure, ERIS Protocol deliberately does without its own chain in order to avoid the single-chain risk of a total loss of the staked assets in the event of an error, failure or attack of such a chain.

Security also requires collaborative action, which is why we are fully dedicated to each community, providing transparent delegations and user participation in governance.

**From the community, for the community**

# Team

Eris Protocol

## **OxPhilipp (Product/Development)**

// 10+ years experience in financial IT-Solutions

// Building core bank applications + services and supporting company security certifications

## **OxUX (UX/UI/Developer)**

// 10+ years experience in automotive DevOps-Projects

// Building high performance enterprise web applications with focus on customer value

## **OxBIZ (Business)**

// 10+ years experience in building companies

// Serial founder

## NETWORK

**20+ highly experienced Software Developers, Marketing Experts & UX/UI-Designer**

# Products

Eris Protocol

## Liquid Staking

- // Highest APY
- // Gauge based delegations
- // Users own governance power

## Arbitrage Vaults

- // Stabilizing LST peg
- // Strategy beating staking rewards

## Liquid Re-Staking

- // Premier Liquid DAO and Re-Staking Provider

## Yield Optimizer

- // LP reward auto-compounding
- // Advanced Wallet DeFi-Automations
- // ve[3,3]
- // Zapper

# Roadmap

Eris Protocol

## Liquid Staking

Expand for ICA chains

// ampATOM

// ampTIA

// ampDYDX

// ampSWTH

## Arbitrage Vaults

More chains + more LST providers

// Stride

// Pryzm

// Drop

## Liquid Re-Staking

More DAOs

More Re-Staking

## Yield Optimizer

Astro Wars

# Seed Investment Round

Eris Protocol

## Raising **\$1.50 million** at a FDV of **\$15 million**

// 1 billion total supply

// \$ 0.015 per token

// 12 months linear unlock beginning 1st September 2024

## Looking for Investment Partners & **Achieving Goals**

// provide capital

// provide liquidity

// initial price discovery

// build strong collaborations

// decentralize ownership

// increasing team size and market share

// build stronger community

// growth potential \$1 billion+ TVL

# White-Paper

Eris Protocol

**Crypto-asset Issuer:** ERIS Labs Corp on behalf of ERIS Foundation, registered in Panama, Company-Id 155751758, [support@erisprotocol.com](mailto:support@erisprotocol.com)

**Information about the project:** ERIS Protocol, Liquid Staking and Yield-Optimization provider

**Information about the crypto-asset:** \$ERIS – utility token – used for staking to receive a governance decided revenue share, governance rights – both not guaranteed

**Information on the rights and obligations attached to the crypto-asset:** There are no rights or obligations attached to \$ERIS – decentralized governance can decide utility

**Information on the underlying technology:** Launched as Factory Token on a cosmos blockchain.

**Information on the risks involved in the project:** Smart contract risks, Governance attack risks, Loss of funds risk, No-liquidity risk, Chain risk, IBC risk, People risk, Legal risk, Centralization attack risk

**Information on the principal adverse impacts on the climate and other environment-related adverse impacts:** As cosmos chains are proof of stake and they have a fixed set of validators, the environmental impact of the chains is low. Further, as \$ERIS is not its own chain, the chains already exist and are being operated already. So there is no environmental impact of launching an additional token.

**The crypto-asset may lose its value in part or in full.**

**The crypto-asset may not always be transferable.**

**The crypto-asset may not be liquid.**

**The utility token may not be exchangeable against the good or service promised in the crypto-asset white paper.**

# IMPORTANT NOTICE AND DISCLAIMER

## Eris Protocol

This document (this "Material") is issued by ERIS Labs Corp (Company No.: 155751758) (the "Company"), a company registered in Panama. This Material has been prepared and issued to a number of potential users (such "Recipients") of the "ERIS" platform (the "Platform") for the purpose of providing them with general information regarding the operational workflow of the Platform. This Material is provided solely for the information and exclusive use of the Recipient and may not be communicated, photocopied, reproduced, disclosed, distributed or divulged to any other person at any time except as agreed in writing by the Company. This Material shall in no event be construed as any form of investment, financial, tax or legal advice.

The information contained in this Material has been prepared solely for informational purposes and is not an offer or invitation to sell or acquire any shares, securities, asset-backed tokens or any assets or other equity interests of whatever nature via the Platform, and shall not be taken as any form of commitment or recommendation on the part of the Company to proceed with any transaction described. Any offer to purchase any interest in any product on the Platform from the relevant third party issuer or manager (the "Issuer") shall only be made pursuant to a definitive offering memorandum or similar document prepared by or on behalf of the Issuer, which would contain material information not contained herein and which shall supersede this information in its entirety. An agreement relating to the Issuer or the acquisition of any asset-backed tokens will only give rise to any contractual obligations (express or implied) when such definitive agreement(s) are executed. Nothing contained herein shall be deemed to constitute an agreement by the Company to permit the Recipient to have unrestricted access to or use of the Company's information, financial figures, data records, or otherwise.

This Material may include forward-looking statements. The Company has based these forward looking statements on its current expectations and projections about future events. These forward-looking statements are subject to risks, uncertainties, and assumptions about the Company, the Issuer, or the acquisition of any asset-backed tokens, and the business environment, and are subject to change without notice. The Issuer's actual results of operations may differ materially from the forward-looking statements. The Company undertakes no obligation to update or revise the contents of this Material, whether as a result of new information, future events, or otherwise. In considering any prior performance history contained herein, the Recipient should note that past performance is not necessarily indicative of future results, and there can be no assurance that the Issuer or any transaction will achieve comparable results or that targeted returns will be met. In particular, the Issuer deals with investment in the early stage technology sector and digital assets. Participation in early stage technology and digital assets carry significantly greater risks and are of high risk and volatile.

# IMPORTANT NOTICE AND DISCLAIMER

## Eris Protocol

In accepting delivery of this Material, the Recipient agrees that no information or communication, whether of facts or of opinions, contained in this Material (including any omission to make any statement) or any other written or oral communication transmitted or made available to the Recipient pursuant to or in connection with this Material is, or shall be relied upon as a promise, representation or warranty to the matters stated or otherwise, whether as to the past or the future. The Recipient's decision to engage with the Issuer or the acquisition of any asset-backed tokens via the Platform shall only be made after independently reviewing the definitive agreement(s), conducting due diligence checks regarding the Issuer and all uncertainties, merits and risks involved as it deems necessary, and consulting its own investment, legal, accounting and tax advisors in order to make an independent determination of the suitability and consequences of engaging with the Issuer or the acquisition of any asset-backed tokens via the Platform, which shall be made in compliance with all applicable laws. Such information and communication is not intended to form the basis of any investment decision and accordingly the Recipient shall hold the Company harmless against any liability for damage or loss that may result from the Recipient relying upon all such information and communication.

The Company does not and does not purport to make, and hereby disclaims, all representations, warranties or undertaking to any Recipient, entity or person (including without limitation warranties as to the accuracy, completeness, timeliness, or reliability of the contents of this Material or any other materials published by the Company or its affiliates). To the maximum extent permitted by law, the Company, its affiliates and service providers shall not be liable for any indirect, special, incidental, consequential or other losses of any kind, in tort, contract or otherwise (including, without limitation, any liability arising from default or negligence on the part of any of them, or any loss of revenue, income or profits, and loss of use or data) arising from the use of this Material, or any other materials published, or its contents (including without limitation any errors or omissions) or otherwise arising in connection with the same.

This Material has not been examined or approved by any regulatory authority. Where an offer is made by an Issuer pursuant to a definitive offering memorandum or similar document, it shall be made only in compliance with and subject to the limitations imposed by applicable laws applying to the offeror's ability to offer securities to prospective investors in their relevant jurisdictions. Any transaction described or contemplated in connection with this Material may be subject to legal and regulatory requirements applicable in multiple jurisdictions, including but not limited to those imposed by the Superintendency of Banks of Panama, British Virgin Islands Financial Services Commission, Cayman Islands Monetary Authority, Monetary Authority of Singapore, government entities in the United States of America, including, but not limited to, the Federal Reserve Bank, the Office of the Comptroller of the Currency, the Securities and Exchange Commission, and other agencies outside of the United States of America that exercise appropriate jurisdiction over certain businesses. The Recipient shall be solely responsible for complying with any and all such requirements (if applicable).
